MindsEye Designs is a creative arts vocational program in Strafford County serving adults with developmental disabilities. At MindsEye Designs we provide instruction, support and tools in a friendly studio environment for individuals in their pursuit to become skilled artists.

The MindsEye Designs Gallery and Gift

Shop provides MindsEye artists with an opportunity to exhibit and sell their work to the public with no commission costs. For many, this is

their first and only source of income.

Artists are further enriched by visits to museums, galleries, artists' studios, and performance venues. Cultural engagement and community participation are essential for the artists in this program.

in the back of the building

Wheelchair access in the front

Artists are provided individually adapted instruction and resources in our lively and dynamic art studio. Projects are designed to build confidence with visual art skills. An explorative and expressive approach is encouraged.

Felted and dyed textiles, beading and jewelry design, floor and lap loom weaving are some of the handcrafted arts explored at MindsEye Designs. Our instruction relies on the elements of art and principles of design while building craft making skills.

MindsEye Designs aims to integrate many ways of engaging the arts - visual and handcrafted arts, photography, movement and local arts and humanities events- to encourage self-expression while strengthening social and work minded skills .
