

Community Partners Family Support Advisory Council

The Community Partners Family Support Advisory Council meets the 2nd Monday of most months. The Council monitors and advises on supports and services provided to families by Community Partners. The Council works closely with the board and staff of Community Partners to support the efforts of families to meet their unique and changing needs. The role of the Council also includes managing a state appropriated budget and monitoring expenditures for families.

In addition to regular Council business, some representatives of the Council serve on the Board of Directors at Community Partners and other area agencies and local and statewide committees. The purpose is to advocate on behalf of families who have family members with a disability.

Who can serve on the Council? Any individual residing in Strafford County that has a family member with a developmental disability receiving services from Community Partners.

For more information, or if you would like to join the Council, please email Patti Aiken at facpattiaiken@gmail.com
