**RE: Community Partners Announces Updated Contact Information for Southeastern New Hampshire Services Following July 2025 Acquisition**

**Dover, NH** — Community Partners announces updated contact information for Southeastern New Hampshire Services (SENHS), following its acquisition in July 2025. Community Partners is the designated community mental health and developmental services provider for Strafford County, and the Aging and Disability Resource Center for both Strafford and Rockingham Counties.

Since joining Community Partners as a dedicated program, SENHS has maintained its long-standing substance use disorder (SUD) treatment programs, now supported by expanded organizational resources. The integration enhances coordination for individuals experiencing co-occurring mental health and substance use challenges and reflects Community Partners' ongoing commitment to improving access, continuity, and quality of care across the region.

To support accurate referrals and communication, all callers can reach SENHS through the Community Partners main number of (603) 516-9300. Email addresses for the Impaired Driver Care Management Program, Turning Point, Admissions and Kane House have also been published:

[IDCMP@communitypartnersnh.org](mailto:IDCMP@communitypartnersnh.org), [TurningPoint@communitypartnersnh.org](mailto:TurningPoint@communitypartnersnh.org),  
[SENHS\\_Admissions@communitypartnersnh.org](mailto:SENHS_Admissions@communitypartnersnh.org), [KaneHouse@communitypartnersnh.org](mailto:KaneHouse@communitypartnersnh.org)

Service providers are encouraged to update their internal directories and share the new contact details with staff. An updated brochure containing all new contact information is now available on the SENHS.Org website.
